

CUPLOCK SCAFFOLDING SYSTEMS

VERTICAL CUPLOCK (STANDARD)

Our vertical cuplock system provides robust and reliable scaffolding solutions. It features welded cups at fixed intervals to accommodate ledger blades at 90°, offering exceptional load-bearing strength for high-rise and heavy-duty structures.

Size (Meter)	Cups	Weight (kg)
1.0 Mtr.	2	4.50 KG
1.5 Mtr.	3	6.80 KG
2.0 Mtr.	4	9.00 KG
2.5 Mtr.	5	11.50 KG
3.0 Mtr.	6	13.40 KG

HORIZONTAL CUPLOCK (LEDGER)

The horizontal cuplock system offers flexibility and strength through precision laser-cut design. Its unique locking mechanism connects to standards at any point, making it ideal for customized and uneven terrain scaffolding configurations.

Size (Ledger)	Weight (kg)
0.5 Mtr.	2.00 KG
1.0 Mtr.	3.75 KG
1.5 Mtr.	5.46 KG
2.0 Mtr.	7.15 KG
2.5 Mtr.	8.50 KG
