

## ACCESSORIES LIST

### GI & MS Anti-Skid Planks (W/O Hook)

High-strength GI and MS anti-skid planks without hooks. Ideal for safe walking paths on scaffolding.

### GI & MS Anti-Skid Planks (With Hook)

Durable planks with auto-lock hooks for secure placement. Common in maintenance platforms.

### MS Box Pipe (Khapeda / Jali)

Heavy-duty MS box pipe with mesh for ventilation and strength. Used in structural formwork.

### GI Toe Board

Edge protection fixed on decks to prevent material falling. Rust-resistant and lightweight.

### Tie Rod

High-strength rods used in formwork systems. Ensures rigidity during slab and wall casting.

### Anchor Wing Nut

Reusable wing nuts for securing tie rods. Designed for heavy loads in shuttering frameworks.
